Move beyond slogans

On March 17, 2026, the BFBI Biennial Conference & Award by FE+MALE Think Tank will bring together leaders, founders, investors, policy-makers, and change-makers focused on understanding and overcoming bias in decision-making, while advancing equity, trust, and opportunity toward 2030.

Through masterclasses, expert talks, panels, and awards, the event combines insight, dialogue, and community-building to drive systemic change - particularly in funding, education, and support for inclusive entrepreneurship.

We invite you to join us for a day of dialogue, collaboration, and ideation focused on addressing bias in decision-making and advancing gender equity, inclusion, and trust - driving greater social cohesion across the Swiss entrepreneurial and investment ecosystem.

Patricia M. Montesinos

President at FE+MALE Think Tank
